Shibaaura, Minato-ku, Tokyo 108-0023

090-XXXX-XXXX

Systems Analyst / Project Lead

QUALIFICATIONS

- 10 years' experience in the development of various financial systems, databases and networks in multi-system/application environment.
- Experienced in system requirement analysis and system design that significantly improves the efficiency of business process, with strong foundation in structured analysis and design methodologies.
- Track record in leading development teams; team player with innovative problem-solving skills.
- Good command of English (STEP2nd Grade)

Technical Expertise

Hardware: PC, Macintosh, WorkStation (Sun, HP, IBM), IBM Mainframe

OS: UNIX (Solaris, HP-UX, AIX), Windows NT/2000/XP, Linux, Novell Netware, DOS, MVS, VM, VMS

Languages: JAVA(ERB), JavaScript, C, C++, C#(.NET), Visual Basic, Perl, SmallTalk, COBOL II, PLI, FORTRAN, Pascal, Prolog, Assembler, HTML, CGI, Motif, IMS/DC, CICS

Databases: Oracle, SQL, Sybase, Informix, DB/2, IMS/DB

Licenses: Certified Information Technology Engineer (Class I, II and Special), JIPDEC

Certifications: Certified Systems Auditor, JIPDEC

CISA (Certified Information System Auditor), ISACA (Information Systems Audit and Control Association)

Certified Digital Type I Installation

PROFESSIONAL HIGHLIGHTS

WORLD SOFTWARE SERVICES CO., LTD. Tokyo

1999 to present

Systems Analyst / Senior Software Developer

- Plan and design various financial systems, including cash management and settlement systems for banks and other financial institutions; participated in entire development life cycle.
- Perform business and technical analysis; analyze current business procedures and requirements, and prepare system specifications.
- Evaluate new technologies and incorporate them into proposals and designs.
- Manage day-to-day development processes, including testing and implementation, and ensure quality and timely delivery. Led development teams of up to 15.

Key Projects

- Multi-currency Cash Management system for global yen settlements for Best Investment Bank. (Unix, PERL, Sybase, C/C++, VB)
- Settlement system for ABC Bank. (UNIX, Windows, Motif, C, C++)
- Network system for ABC Bank, which is the infrastructure of the banking system. (UNIX, Windows, C, C++)
- Settlement system for XYZ bank, which covers the entire nation with 24-hour operation. The network links 3,000 branches via satellite. (UNIX, Windows, Motif, C, C++)
- Credit card settlement system that links credit card companies with POS and GAT terminals to perform credit checks and settlements for a credit card security company. (UNIX, Windows, Motif, C, C++)

BEST INFORMATION ENGINEERING CO., LTD., Tokyo

1995-1998

Software division of Best Computer, Inc.

Software Developer / Team Leader

- Developed various financial systems for brokerage firms and insurance companies.
- Defined system requirements and developed basic designs.
- Led development teams of up to 8.

Key Projects

- Integrated asset management system for institutional investors for an insurance company. Linked GUI on UNIX workstations (TCP/IP) to RDB on IBM mainframe (SNA). Led a workstation group of 6.
(MVS/XA, UNIX, AIX, PL/I, C, CICS, DB2, Motif)
- Bond and securities management system for a brokerage firm. Led a design team of 8.
(MVS/XA, COBOL, Assembler, IMS/DB, IMS/DC)
- Account control system on IBM3090 for a brokerage firm. Led a subsystem group of 5.
(MVS/XA, COBOL, Assembler, IMS/DB, IMS/DC)

ABC INFORMATION SYSTEMS CO., LTD., Tokyo

1993-1995

Software Engineer

- Developed asset management and distribution systems.
- Led a development team of 5.

EDUCATION

BS in Information Technology, Best University, Tokyo, 1993
